SUMMARY OF INFORMATION

The target area is comprised of several structures located in the vicinity of a body of water. See ENCLOSURE 1. ~~It is a~~ Soviet "research, developmental, testing" area involved in "isolated" ~~nuclear~~ testing.

The work/testing is underground and interconnected with tunnels. *in an area*
1

Objects described as "~~SX missiles~~ with wings" are set in place in the target ~~area~~ by heavy machinery and add to the strategic importance of the target area.

(OPS CMTS: The term SX missile is untenable to the undesignated.)

HANDLE VIA SKEET CHANNELS ONLY

~~SECRET~~

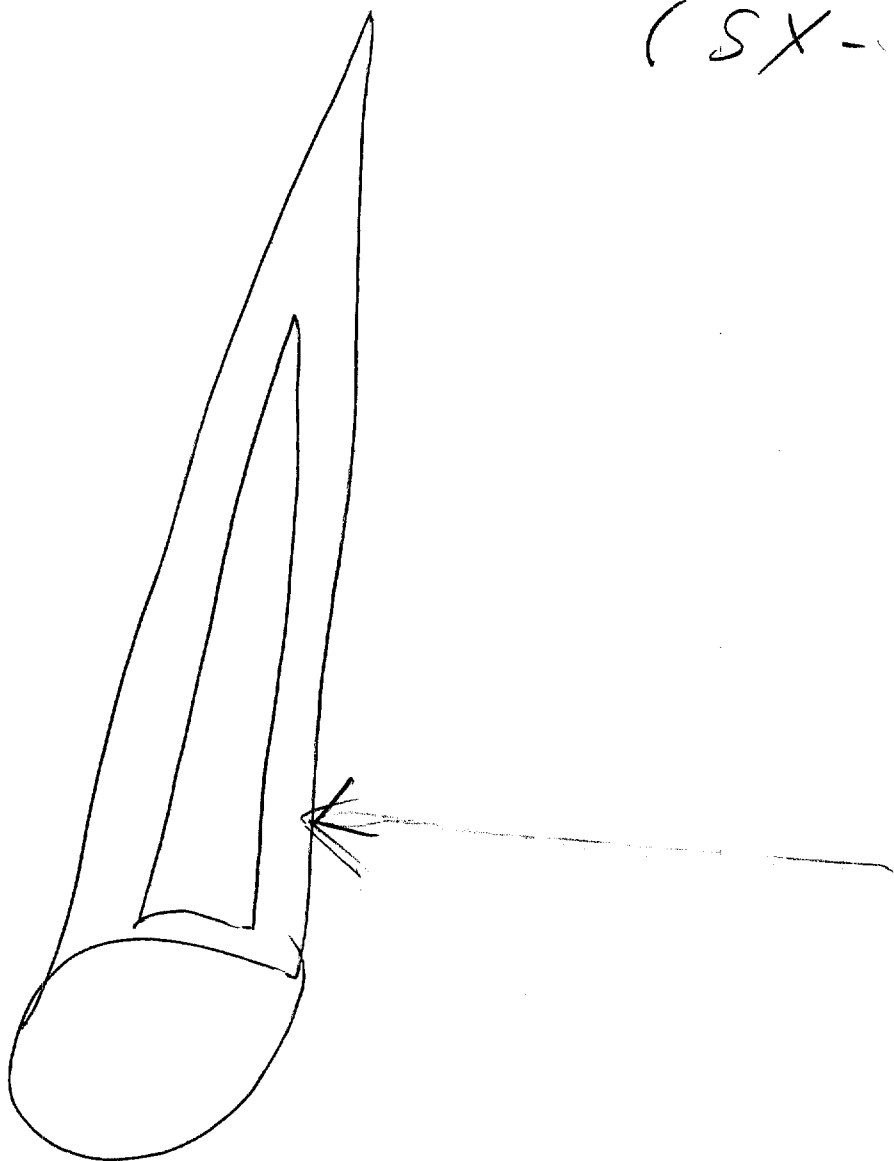

The area of interest is a Soviet site which consists of many structures and is near water.

The work that is being done here is scientific in nature and deals with the applied sciences.

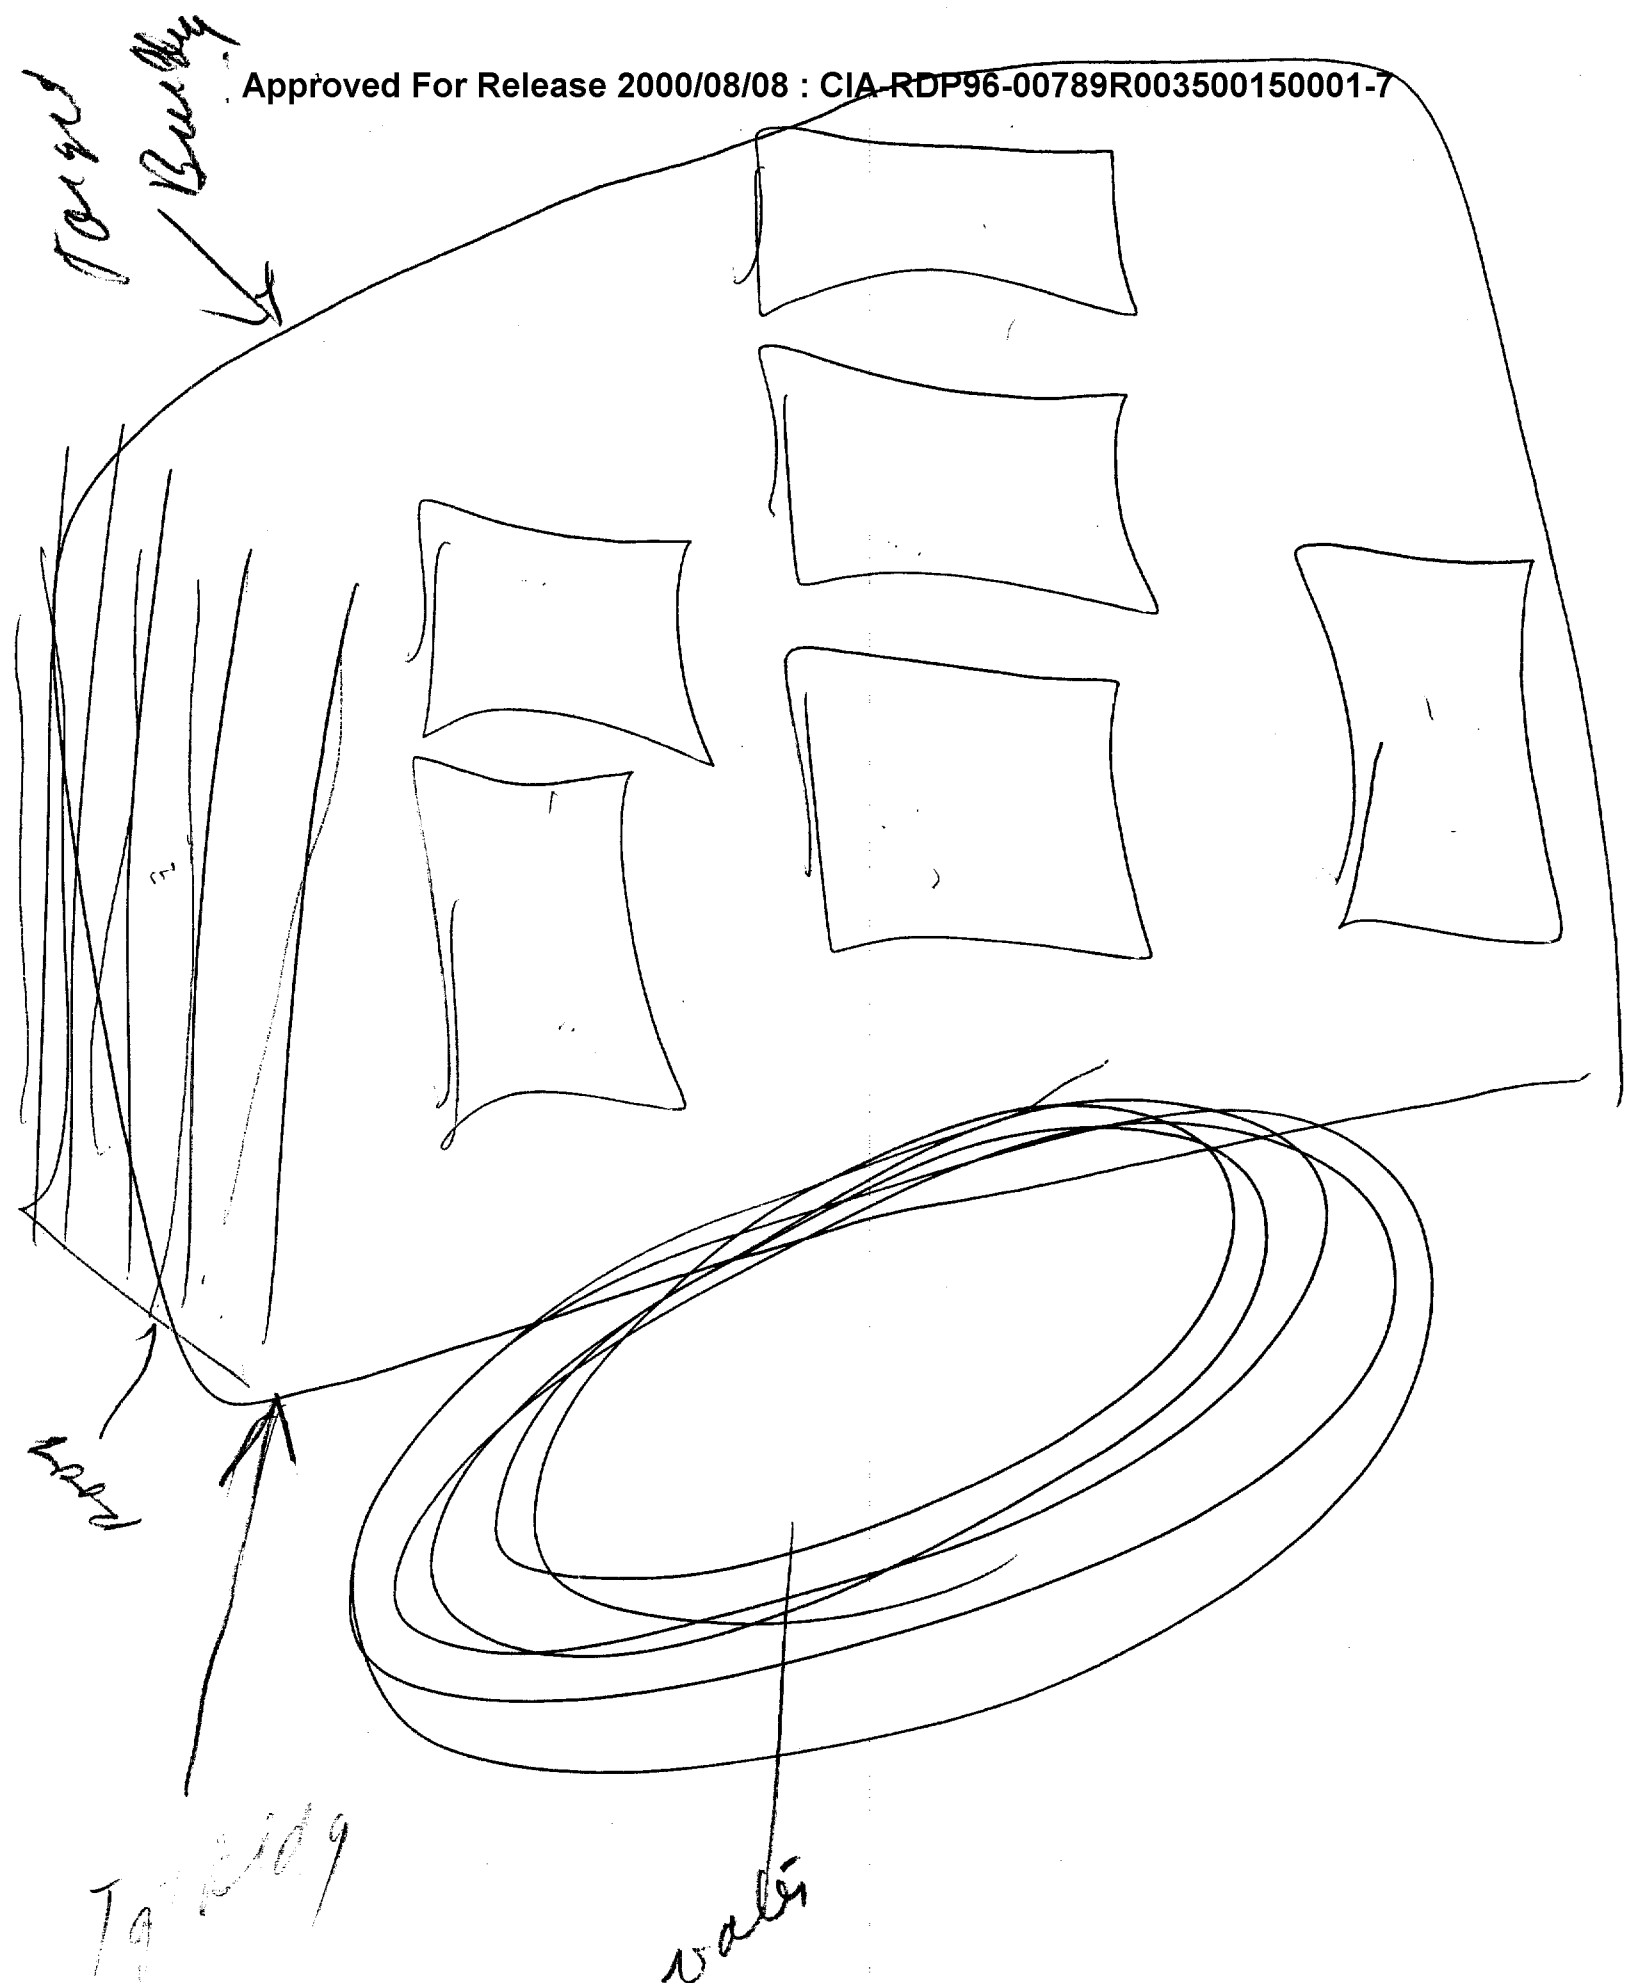

One major aspect of the work here deals with an object that can be placed underground by people and machines. The object is nuclear and something flies out of the object.

The object was called an "S~~X~~ missile."
